

Cut sleeves

Many of the tubings and sleeveings in our extensive range can be supplied pre-cut, packaged and in ready to use pieces. These cut sleeves are accurate to strict length and angle tolerances and in large or small quantities to suit your particular project. Standard length pieces can often be supplied for next day delivery.

In addition to custom cutting our extensive range of sleeveings, some of these such as Neoprene (NP), Silicone Rubber (SR), PVC, layflat PVC, and some heatshrink polyolefins are available off the shelf in standard lengths for marking and coding purposes. Please contact us with your requirement to find out more.

Key Information

Sleeve Types: Heatshrink polyolefin, neoprene, silicone, PVC, layflat PVC, Kynar (for other types, please ask)

Packing: In polybags, on organised/ladder-style carriers, kitting

Delivery: Fast turnaround, often next day delivery on ex-stock, standard length sleeves

Printasleeve Ltd is as diligent as possible in compiling and updating the above information. It reflects averages derived from product sample testing, is subject to normal manufacturing and testing tolerances and may be changed without notice. Furthermore aesthetic and textural style differences can result in local variation. For specific or further information concerning our products, their specifications and their utilisation please contact us. E & OE
