

## Printashrink CPF/FR

Printashrink CPF/FR is a commercial grade 2:1 shrink ratio heatshrink polyolefin with a working temperature of 135°C. It is a UL approved, fire retardant sleeve ideal for general use in high quality equipment and is readily available in many colours in sizes up to 150mm ID and can be cut and printed as required. This high quality tubing is perfect for commercial applications where a 135°C working temperature and UL/CSA approval is required. It is often used for insulation, wire bundling and mechanical protection, and is available in many colours and sizes as standard. The range of colours and sizes also makes it popular for printing both text and logos. We offer our full range of printing and cutting services on this high quality, commercial sleeve making it perfect for identification, branding and marking requirements.

- Shrink Ratio: 2:1

- Shrink Temperature" 100°C

- Operating Temperature -55°C - +135°C

- Flame Retardant: Yes (except clear)

- **Colours:** black, red, yellow, blue, white, green/yellow, clear, Other colours available upon request

- Sizes: 1.2mm ? 150.0mm

- Packing: Reels, mini-reels, mini-packs, cut to length, kits, cut sleeves

- Print: Yes, full range of text and logos in all colours

 Approvals: AMS-DTL-23053/5 DEF STAN 59-97 VG 95343 Pt5, UL 224 VW1 600V 125C, CSA 600V 125°C, RoHS compliant

- Applications / Industries: General, Commercial, Electrical,

Electronics, Industrial, Mechanical, Automotive
